

Martini Park

THE BARISH GROUP

LOCATION

Chicago, Illinois
Plano, Texas

PROJECT DELIVERY

General Contractor

ARCHITECT

Jeffrey Beers International

ICI was honored to be selected by The Barish Group to serve as the General Contractor in the construction of this upscale martini bar and restaurant in the Legends Shopping Center in Plano, Texas; and shortly thereafter, a second Martini Park in Chicago, Illinois at 151 West Erie Street.

Both restaurants were 7,000 SF interior build-outs and both were designed by the world-renown architect Jeffrey Beers whose credits include Japonais in New York and Chicago, Rum Jungle in Las Vegas and Ono in New York.

Both Martini Park restaurants boast high-end finishes, subdued lighting and

intricate detailing. Each also features an amber stone bar and two limestone waterfalls that can be uplit in custom colors. Several private booths and a myriad of flat-screen televisions add to the ambiance of the restaurants with their “look” of sophisticated, upscale ski lodges.

The Barish Group was well known for its acclaimed Light Night Clubs in Las Vegas and New York and the exclusive Marquee in New York.
