In conjunction with 2 other projects completed at Central Dupage Hospital, ICI remodeled the entire 5th Floor of the hospital's South Building. Totalling 14,000 SF, the build-out consisted of office and administrative spaces for the hospital's healthcare staff. The final construction cost was \$1.1 million.

The renovation project required a high level of coordination due to close proximity to occupied areas of the hospital and modifications to multiple building systems serving these occupied spaces.
