## COOPER'S HAWK WINERY & RESTAURANT, LLC

### LOCATION

Clinton Township, Michigan

### PROJECT DELIVERY

Construction Management

### ARCHITECT

Aria Group Architects

After ICI successfully delivered an interior build-out of a Cooper's Hawk in Oak Park, Illinois; the winery and restaurateurs then opted to negotiate a construction management contract with ICI on a ground up location in Clinton Township, Michigan.

The new restaurant will be constructed through the winter months within an outlot at Partridge Creek Mall and is targeted to be complete in early summer 2018.

The space will include an extensive LED lighting package and high-end interior finishes complete with six different types

of tile, various custom millwork pieces as well as quartz and granite countertops.

Jobsite safety will be of paramount importance as the new location is being built adjacent to an active mall (with a significant portion of construction taking place throughout the holiday season).

The on-site superintendent is working closely with the mall operations staff to manage all safety components of the project.
